Section to be completed BEFORE THE MOBILITY

I. PROPOSED MOBILITY PROGRAMME

Planned period of the training activity:

from *[25/06/2018]* till *[29/06/2018]*

☐ Additional day for travel needed directly before the first day of the activity abroad

☐ Additional day for travel needed directly following the last day of the activity abroad

Overall objectives of the mobility:

- Getting to know the organization and the facilities of University of Minho;
- Meeting with International representatives;
- Offering information about the Faculty of Education Sciences in order to stablish a new student and staff mobility agreement, with special regard to Master and PhD degrees.
- Understanding the operation of the Instituto de Educaçâo, i.e. the Centro de Investigaçâo em Educaçâo and the Centro de Investigaçâo em Estudos da Criança, as a model for the future Instituto Universitario de Investigación Educativa of the Universidad de Sevilla currently under development.

Added value of the mobility (both for the institutions involved and for the staff member):

The Universidade do Minho, which maintains relationships with more than 80 countries and 400 universities around the world, is very active in mobility programs and very experienced in managing fruitful relationships, resulting in articles in journals with impact factor and international research networks.
This mobility thus will enable the development of a partnership with one of the most important Institute of Education in Portugal, awarded with more than 30 international and national funded research projects. It is to be expected that research networks and collaborative research potential between our Institution will be increased. A deep collaboration between Universidade do Minho and Universidad de Sevilla will enhance the competitiveness of research groups and individuals due to the complementarity of several of the lines of actions carried out by both Institutions.
Indeed, we aim to offer an attractive partner for Master and PhD students, who currently lack the opportunity of enjoying an Erasmus mobility, fostering operational synergies with existing degree programs.

Activities to be carried out

- Engage with International representatives to explore the possibility of a new mobilitiy agreement, including Master and PhD degrees, to lead in a international double degree.
- Visit the Instituto de Educaçâo to know their pedagogical innovations.
- Meet with representatives of Centro de Investigaçâo em Educaçâo and the Centro de Investigaçâo em Estudos da Criança to get to know the operation and evaluate the possibility of cooperation with the future Instituto Universitario de Investigación Educativa of the University of Seville.

Expected outcomes and impact:

The anticipated benefits are as follow:

1. Widen the Erasmus+ mobility offer for student and staff, with special regard to Master and PhD levels, to one of the most important Schools of Education in Portugal.
2. Extent the research outcomes of the staff of the University of Seville through the collaboration with the Research Centres associate to the Instituto de Educaçâo of the University of Minho.
3. Encourage and help the creation of the future Instituto Universitario de Investigación Educativa by stablishing a research network and collaborative activities with the Instituto de Educaçâo of Unniversidade do Minho.

II. COMMITMENT OF THE THREE PARTIES

By signing[6] this document, the staff member, the sending institution and the receiving institution/enterprise confirm that they approve the proposed mobility agreement.

The sending higher education institution supports the staff mobility as part of its modernisation and internationalisation strategy and will recognise it as a component in any evaluation or assessment of the staff member.

The staff member will share his/her experience, in particular its impact on his/her professional development and on the sending higher education institution, as a source of inspiration to others.

The staff member and receiving institution/enterprise will communicate to the sending institution any problems or changes regarding the proposed mobility programme or mobility period.

Section to be completed BEFORE THE MOBILITY

I. PROPOSED MOBILITY PROGRAMME

Planned period of the training activity:

from *[24/ Sep./2018]* till *[28/ Sep./2018]*

☐X Additional day for travel needed directly before the first day of the activity abroad

☐X Additional day for travel needed directly following the last day of the activity abroad

Overall objectives of the mobility: To develop understanding and gather information about the key research interests and lines of investigation in TRINITY COLLEGE DUBLIN.
Added value of the mobility (both for the institutions involved and for the staff member): - make research experiences and results visible for other European universities - create possible research and Erasmus agreements
Activities to be carried out - seminar attendance - research experiences - formation sessions if short courses are available
Expected outcomes and impact: - support and further internationalization of both universities - promote different investigation lines and new postgraduate courses - create a co-joint investigation programme for teacher students´ proffesional developement.
